

ENEMED QUALITY POLICY STATEMENT

Only the highest standards of quality are acceptable by Enemed Co. Ltd. In supplying its services and this responsibility devolves upon me as Chairman and on the Management and Staff of the various sections of Enemed Co. Ltd.

I have set as the main core objectives of Enemed Co. Ltd. the following:

- To ensure that the quality of all fuels handled is established and maintained from procurement to delivery to customer to the level required by the industry and to make deliveries on time and as agreed with customer.
- To protect customer's assets by observing the industry required level of care and maintenance of the equipment used and to do so in an efficient manner.

Enemed Co. Ltd. will maintain a Quality System in compliance with the International Standards ISO 9001:2015 – *Quality management systems – Requirements*.

Product quality and correct operational practices are assured by carrying out the procedures defined in the Quality Control Manuals and the requirements of any contract entered into. Operational and working procedures defined in the *Quality Control and Operating Manuals* take account of the internationally accepted operating methods in use in fuel handling.

By continuous investments in its infrastructure and equipment, training of staff and active co-operation and work with our Customers, the Company intends to seek continual improvement of its Quality System to achieve the highest levels of service and to remain as the preferred supplier. I have given the Divisional Manager – Operations the executive responsibility for ensuring that this quality system is maintained.

Date: 17th November 2016

Kevin Chircop
Executive Chairman
