ENEMED COMPANY LTD

**TENDER FOR THE SUPPLY OF A DIESEL POWERED AIR COMPRESSOR AND AN ELECTRICALLY
POWERED AIR COMPRESSOR**

File Ref No: Purchase of A Diesel Air Compressor and Electrical Air Compressor

Date : 9th September 2018

Proposals are to be submitted up to 31st October 2018 by 11:00a.m

On Email: tenders.enemed@enemed.com.mt or

at Enemed Co. Ltd. , Malta

Block A,
Vjal L-Avjazzjoni,
Luqa. LQA 9023
Malta

Prospective bidders are invited to quote for the supply and delivery of 1 (one) (in number diesel powered air compressor and 1 (one) in number electrical air compressor for Enemed Co. Ltd. as described in **Section 3 - Technical Specifications**, enclosed in this attached "Quotation Form".

A hard copy Quotation duly referenced: 'Purchase and supply of An Air Compressor and An Electrical Air compressor, which quotation should be inclusive of a detailed breakdown of the offer as well as supporting literature, should be deposited in the tender box at:-

Enemed Co. Ltd.

Block A,
Vjal L-Avjazzjoni,
Luqa. LQA 9023
Malta

by not later than 31st October 2018 **at 11.00 hrs (CEST)**.

Or via email on tenders.enemed@enemed.com.mt by not later than 31st October 2018 at 11.00hrs (CEST)

Should your bid be successful you will be notified within the binding period as stipulated in Clause 2.2(i) of attached conditions.

SECTION 1 - General Information

1.1 PURPOSE

Enemed Co. Ltd. invites proposals from suppliers of Compressors

1.2 SCOPE FOR THE PROCUREMENT

The purpose of this procurement is to supply Enemed Co. Ltd. With one in number Diesel Air Compressor and one in number Electrical compressor as per technical specifications.

1.3 PAYMENT TERMS

Payments shall be made in Euro, 60 days from invoice date. The invoice must include a signed acceptance form.

SECTION 2 - Terms and Conditions

- 2.1 The prices shall be quoted in **Euro** and shall be inclusive of VAT, and all other charges as applicable.
- 2.2 From the closing date fixed for the receipt of quotations:
 - (i) Quotations submitted shall remain binding for a period of 60 days.
- 2.3 Should any unsatisfactory service, such as failure to meet commitments either partially or in their entirety or failure to deliver goods in time will be recorded in Suppliers' Performance Records. Enemed Co. Ltd reserves the right to discontinue the orders if services do not meet the required criteria as requested
- 2.4 Successful bidders shall be bound to conform in all respects with VAT legislation and regulations.
- 2.5 Enemed Co. Ltd. reserves the right to reject any quotation without giving reasons for the acceptance or rejection of any particular offer.
- 2.6 Prospective Suppliers are being informed that queries on this Call for Quotation Document and/or its contents, are only accepted up to five (5) days before the closing date on e-mail: tenders.enemed@enemed.com.mt and Enemed Co. Ltd. is bound to forward replies to these queries at the latest two (2) days before the closing date. No further clarifications will be provided after this date.
- 2.7 The selection criteria will be based on the lowest price, conforming to the technical specifications listed below in Section 3

SECTION 3 – Technical Specifications

Supply of Mobile Diesel Powered Air Compressor/Generator and a Mobile Electrically Powered Air Compressor

This tender is for the supply and delivery to Enemed stores of a mobile diesel-powered combined air compressor and generator, an electrically powered air compressor and auxiliary equipment.

The units shall be portable and inclusive of a fully galvanized trailer complete with manual parking brake and break away towing bar with incorporated emergency brake.

Technical Details:

The units shall be screw type air compressors having the following specifications:

Item No. 1

1		Scope	
1.1		Supply of Mobile Diesel Powered Air Compressor/Generator	
2	Rank	Requirements	Tenderer Response Confirm Yes/No or State Value
2.1		Unit Type	
2.1.1	M	Portable unit combined air compressor/generator mounted on a fully galvanized trailer.	Yes/No
2.1.2	M	Minimum duties of the screw type air compressor – 7 cubic metres at 7.5 bar.	Yes/No
2.1.3	M	Unit shall be diesel driven.	Yes/No
2.1.4	M	Unit shall have electric start.	Yes/No
2.1.5	M	Unit shall be enclosed in a sound proof cabinet where the maximum emitted noise is not to exceed 75 dB.	Yes/No
2.1.6	M	Unit shall be able to supply at the same time, both the minimum air flow and a three phase power outlet of at least 8.5 KVA at a voltage of 230/400V at 50 Hz.	Yes/No
2.1.7	M	Electrical circuit shall include ELCB, MCB and protective devices.	Yes/No
2.1.8	M	Unit shall have one single phase 16 amp and one three phase five pin 32 amp socket outlets.	Yes/No
2.1.9	M	Unit shall have a minimum of two G ¾ inch and one G 1 inch air outlets.	Yes/No
2.2		Trailer	Yes/No

2.2.1	M	Trailer shall be hot dipped fully galvanized.	Yes/No
2.2.2	M	Trailer coupling shall incorporate a braking system for the trailer.	Yes/No
2.2.3	M	Trailer shall be complete with rear brake lights and indicators. The wiring should terminate in a front socket to be connected to the towing vehicle using a standard four pin plug.	Yes/No
2.3	M	Guarantee of spare parts availability for a minimum period of ten years	Yes/No
2.4	M	Unit shall be covered by a minimum guarantee period of 24 months including servicing during this period.	Yes/No
2.5	M	All items supplied must bear a CE mark together with a declaration of conformity issued by a third party inspector body stating that the unit is manufactured to current EU regulations and directives.	Yes/No
2.6	M	Training - The supplier is also to provide basic training to Enemed staff on the safe and correct use of the unit including start-up procedures and routine maintenance to the unit.	Yes/No

Technical literature is to be provided with the offer.

Item No. 2

1		Scope	
1.1		Supply of Mobile Electrically Powered Air Compressor	
2	Rank	Requirements	Tenderer Response Confirm Yes/No or State Value
2.1		Unit Type	
2.1.1	M	Portable air compressor mounted on a fully galvanized trailer.	Yes/No
2.1.2	M	Minimum duties of the screw type air compressor – Free air delivery of 1,800 litres per minute at 7.5 bar.	Yes/No
2.1.3	M	Unit shall be electrically powered.	Yes/No
2.1.4	M	Unit shall include starter, ELCB, MCB and protective devices	Yes/No
2.1.5	M	Unit shall be enclosed in a sound proof cabinet where the maximum emitted noise is not to exceed 75 dB.	Yes/No
2.1.6	M	Unit shall have a minimum of two G ¾ inch and one G 1 inch air outlets.	Yes/No
2.1.7	M	Unit shall have an aftercooler.	Yes/No
2.2		Trailer	
2.2.1	M	Trailer shall be hot dipped fully galvanized.	Yes/No
2.2.2	M	Trailer coupling shall incorporate a braking system for the trailer.	Yes/No
2.2.3	M	Trailer shall be complete with rear brake lights and indicators. The wiring should terminate in a front socket to be connected to the towing vehicle using a standard four pin plug.	Yes/No
2.3		Auxillaries	
2.3.1	M	Air Dryer conforming to BS ISO 7183 : 2007; ISO 8573-1 (class 4, pressure dew point 3 deg C)	Yes/No
2.3.2	M	Horizontal Air Receiver , to be used for the supply of breathing air, internally coated, having a capacity of at least 4,500 litres, working pressure 10 bars, complete with pressure relief valve, drain, inlets and outlets, one of which is to be of at least 50 mm N.B. and lifting lugs. Unit is to be manufactured to a recognized standard, such as BS, EN, ASME, etc.	Yes/No Yes/No

		Certification of air receiver, especially for the pressure rating, to be provided.	
2.4		Breathing Air Purification Unit	
2.4.1	M	Flow Rate of 20 litres per second	Yes/No
2.4.2	M	Max operating pressure 10 bars	Yes/No
2.4.3	M	Operating Temperature Range 5 deg C to 30 deg C	Yes/No
2.4.4	M	Outlets for at least 5 operators	Yes/No
2.4.5	M	Coalescing Filters for the removal of water and oil aerosols	Yes/No
2.4.6	M	Activated carbon filter for the removal of oil vapour and odours	Yes/No
2.4.7	M	Pressure gauge, pressure regulator and CO monitor	Yes/No
2.4.8	M	Air Purification Unit to be housed in a weatherproof heavy duty case.	Yes/No
2.5		Portable Air Tester (Test Kit)	
2.5.1	M	Testing of compressed air up to 10 bar, to test for the presence of Carbon Monoxide, Carbon Dioxide, Nitrous fumes, oil and water vapour. Testing range according to EN 12021 – 2014.	Yes/No
		Guarantee and Training	
2.6	M	Guarantee of spare parts availability for a minimum period of ten years	Yes/No
2.7	M	Compressor Unit shall be covered by a minimum guarantee period of 24 months including servicing during this period.	Yes/No
2.8	M	All items supplied must bear a CE mark together with a declaration of conformity issued by a third party inspector body stating that the unit is manufactured to current EU regulations and directives.	Yes/No
2.9	M	Training - The supplier is also to provide basic training to Enemed staff on the safe and correct use of the unit including start-up procedures and routine maintenance to the unit.	Yes/No

Technical literature is to be provided with the offer.

Items may be awarded separately.

Note: Kindly fill in ALL schedules as explained in INSTRUCTIONS FOR PERSONS TENDERING FORM. In cases where data is left missing, offer will not be considered.

SECTION 4 – Price Schedule

Items	Description	Qty.	AMOUNT (In Figs & Words) <i>To include: import duty, registration tax & VAT, delivery, duties, and all other charges).</i>	
	Compressors		Cost including Vat and all other applicable duties and charges, delivery to Enemed premises	Total
LOT 1	Diesel Driven Air Compressor	1		
LOT 2	Electrical Air compressor	1		

Bidders are to insert the delivery period of the vehicles to Enemed

Delivery will be effected within.....from date of issue of letter of acceptance.

INSTRUCTIONS to PERSONS TENDERING

- **The Tenderer shall examine all instructions, schedules, forms, terms and specifications before submitting his offer.**
- **ALL SCHEDULES are expected to be filled in with requested data and confirmations. In cases where data in SCHEDULES are left missing, offer may not be considered.**
- **No alteration shall be made in the Tender or in the Schedules thereto except in filling up the blanks as directed. If any such alterations be made or if these instructions be not fully complied with, the Tender may be rejected. The Tenderer, however, is at liberty to add further details that he may deem desirable. Such details shall not be binding upon the Purchaser.**
- **RANKING SYSTEM. The Schedule for technical requirements includes a checklist ranking system marked M, S or C with their meanings as explained hereunder.**

M – Must have. This means that specifications included in the section are fixed and no compromises will be made. Specifications from supplier must conform to any specifications written in this section.

S – Should have. This means that specifications by the supplier should conform to the requested specifications. However, here the supplier may offer a specification or solution which will perform or is equal to the requested specification and is acceptable by Enemalta Corporation.

C – Could have. This includes specifications that the item is “nice to have” and if price was competitive could influence the final decision. Since this is not a must and not a should, if this is not in the specification this may be chosen. If the final decision is one of price than the one which offered the “Could Have’s” will be given preference.

The prospective tenderer must ensure that as a minimum the “must have’s” are ALL COMPLETED.. This should also give the option to the prospective tenderers to offer alternative and possibly more technically and cost effective solutions by conforming to the “must have” and possibly offering variations for the others.

- All Documents requested in SCHEDULE of INFORMATION REQUIREMENTS must be submitted with the offer. **Failure to furnish all information being requested will be at the Tenderer's risk and his Tender may be rejected.**
- **All information and documents should be in English language and expressed in SI units.**
